WORK EXPERIENCE

Full Stack Developer (Freelance)
Tekmadev

📅 September 2019 - current   📍 Remote

- Developed a NFT Social Website: Primarily focused on back-end development using Firebase, and contributed to front-end development with React.js and Next.js, creating a robust and scalable platform for NFT enthusiasts.
- Designed and Built a Marketing Website: Created a comprehensive marketing website for a gas station owner, featuring HTML/CSS for front-end development and PHP for the back-end, effectively promoting the stations and their teams.
- Contributed to Cross-Platform Mobile Application Development: Enhanced user engagement and streamlined operations by developing a cross-platform mobile application, utilizing React Native for the front end and Python for the back end.
- Created Websites with WordPress for Small Businesses: Designed and developed user-friendly and responsive websites for small businesses using WordPress, improving their online presence and customer reach.

Web Developer
Linen Chest

📅 August 2021 - August 2023   📍 Remote

- Feature Development: Developed various features for an e-commerce website, ensuring seamless integration and functionality.
- Bug Fixing: Debugged and resolved critical issues to maintain website stability and performance.
- Testing: Conducted thorough testing and debugging at the end of every sprint to ensure high-quality releases.
- Cart Development: Built and integrated a shopping cart using React.js, compatible with Magento and PHP.
- Issue Resolution: Addressed complex issues with real-time lead prioritization using Jira.
- JS Error Debugging: Utilized Noibu to debug and fix JavaScript errors, preventing significant revenue loss.

Junior Full Stack Developer
Brossard App Design

📅 August 2020 - January 2022   📍 Montreal, QC

- Wireframe Design: Created and managed wireframe designs based on client requests, ensuring alignment with their vision.
- Website Maintenance: Added and maintained features on the company website, enhancing functionality and user experience.
- Mobile App Development: Developed a calendar and daily task mobile app using React Native, and contributed to the development of a gym mobile application.
- Data Analysis and Optimization: Expert in data analysis, optimized SQL queries to improve data flexibility, reduce manual data entry, and enhanced data organization.
